PROFESSIONAL SUMMARY

Motivated BICT undergraduate with a strong foundation in computer networking, including routing and switching, VLAN configuration, subnetting, TCP/IP, and network security. Hands-on experience designing enterprise network solutions using Cisco Packet Tracer and developing network-related projects with Python. Committed to continuously enhancing technical skills and contributing to reliable and secure network infrastructure.

EDUCATION

Bachelor of Information and Communication Technologies [Hons]

2023 - Present

University Of Vavuniya

TECHNICAL SKILLS

- **Networking** - Routing & Switching, VLAN Configuration, Subnetting, Network Troubleshooting
- **Protocols** - TCP/IP, IPv4/IPv6, OSPF, DHCP
- **Operating Systems** - Windows, Linux (Basic)
- **Network Devices** - Cisco Routers, Cisco Switches
- **Network Security** - Access Control Lists (ACLs), Network Security Fundamentals
- **Networking Tools** - Cisco Packet Tracer
- **Programming** - Python, Java
- **Database** - MySQL
- **Version Control** - Git, GitHub

PROJECTS

Enterprise Network Design and Implementation

[github](#)

- Designed and implemented a secure enterprise network with network segmentation and device configuration.
- Technologies: Cisco Packet Tracer, Routing, Switching, VLANs, OSPF, DHCP, ACLs, IPv4.

Basic Network Security Scanner

[github](#)

- Developed a basic Python-based network security scanner to identify open ports and detect potential security risks in a target system. The tool helps in understanding network exposure and basic vulnerability assessment concepts.
- Technologies: Python, Socket Programming, Network Scanning, Port Scanning, Basic Cyber Security Concepts

Money Manager

[github](#)

- Personal finance management application for tracking income, expenses, and budgets.
- Technologies: Java, Object-Oriented Programming (OOP), MySQL, GUI Development.

Complaint Management System for University

[github](#)

- A web-based system designed to manage and track student complaints efficiently, allowing users to submit, update, and monitor complaint status through a structured workflow.
- Technologies: HTML, CSS, JavaScript, PHP, MySQL

CERTIFICATIONS

- Networking Basics - Cisco
- Advanced Python , Simplilearn
- Python Programming: The Complete Course for Success , Udemy
- Python for Beginners, University of Moratuwa (Open Learning Platform)
- SLASSCOM PROFESSIONAL SKILLS PROGRAM , SLASSCOM Academy
- Introduction to PHP , Simplilearn
- Excel Automation using ChatGPT , Simplilearn
- React Course , DP Education IT Campus

REFEREES

Mr.V.Senthooran
Dean,
Department of Information Communication
Technology,
Faculty of Technological Studies,
University of Vavuniya, Sri Lanka.
