Experience

○ Apr 2026 – Present

Sri Lanka Telecom| Hybrid | Colombo, Sri Lanka

Software Quality Assurance Engineer Intern

Currently working as a Software Quality Assurance Engineer Intern at Sri Lanka Telecom, where I am involved in manual testing of web applications and system functionalities to ensure software quality and performance. My responsibilities include preparing test cases and test reports, assisting with defect reporting, and supporting API testing and validation activities. I also work with automation testing concepts using Selenium and collaborate closely with the QA team to improve system reliability and user experience.

○ Nov 2021 – May 2022

Ceylon Electricity Board| On-site

Computer Applications Assistant Intern

Completed industrial training as a Computer Applications Assistant Intern at Ceylon Electricity Board attached to the Electrical Engineer (Kirindiwela) Unit. During the training period, I assisted in computer-related tasks, IT support activities, data handling, documentation, and reporting processes. I gained practical exposure to ICT systems and office automation while improving my skills in MS Word, Excel, communication, teamwork, and basic IT support. This experience also helped me develop workplace professionalism and a better understanding of real-world IT operations in a government organization.
